TERMS OF SALE

1. This is a public auction and mail bid sale, conducted by PONTERIO & ASSOCIATES, INC. Subject to our consent, liberty for bidding by sellers and/or consignors is hereby reserved.

2. A 10% buyers charge will be added to the hammer price of each lot. This charge will be added to all invoices.

3. Subject to paragraph 8, all material shall be sold to the highest bidder as determined by the auctioneer. If any dispute arises during or immediately after the sale of a lot, the auctioneer shall have the right to recall the lot and put it up for sale again. In all cases, auctioneer's decision shall be final. For the bidder's protection, NO "UNLIMITED" or "BUY" BIDS WILL BE ACCEPTED. Bids are to be made in U.S. currency only.

4. Terms of this sale are strictly cash with payment due immediately upon receipt of invoice. Payment by check must be payable in U.S. currency only and drawn on a U.S. Bank. No credit card purchases will be accepted. Title to all lots remains with consignor until paid in full.

5. Minors are expressly forbidden to bid in this sale.

6. Floor bidders and mail bidders not known to us must furnish satisfactory credit references, sufficiently in advance of the sale to allow for checking, or a deposit equal to 25% of their total bids for that session(s) before such bids can be accepted. Deposits submitted will be applied to purchases and any unused portion of such deposit will be promptly refunded.

7. All bids must be per lot as numbered in this catalogue. No lots will be broken. Lots will be sold in their numbered sequence unless auctioneer directs otherwise.

8. We reserve the right to withdraw any lot prior to the sale and to open the bidding on any lot at a reasonable price.

9. All items in this catalogue are guaranteed to be genuine unless specifically stated otherwise in the lot description. Claims to the contrary must be made in writing within three days after receipt of the lot. Any returned lot must be intact and in its original unopened holder. No lot may be returned without prior written consent. In no event may any lot be returned after thirty (30) days from the date of sale. LATE REMITTANCE FOR PURCHASES CONSTITUTES JUST CAUSE TO ABROGATE ALL RETURN PRIVILEGES FOR ANY REASON.

10. Grading is a subjective description in the opinion of the cataloguer, as to the state of preservation of a particular coin or lot. The term "Proof" or "Specimen" is used to describe a method of manufacture, and not a grade or condition. Such terms are the opinion of the cataloguer and shall be deemed to be part of the description and not an attribution. No warranty, whether expressed or implied, is made with respect to such adjectival descriptions, which can and do vary among experts.

11. This is not an approval sale. Bidders are expected to promptly purchase all lots awarded to them by the auctioneer. Floor bidders are encouraged to carefully examine all lots in which they are interested in purchasing, since NO LOT MAY BE RETURNED BY FLOOR BUYERS, INCLUDING THOSE LOTS WHERE THE BIDDER IS ACTING AS AGENT FOR ANOTHER PARTY, OR BY MAIL BIDDERS WHO HAVE EXAMINED THE LOT PRIOR TO THE SALE.

12. Mail bids will be accepted from those who can not attend the sale in person. Bids for all lots must be submitted in even dollar amounts, or they will be reduced to the next even dollar amount. Successful mail bidders will be awarded the lot at a nominal advance over the second highest mail or floor bid. When identical bids are received by the auctioneer, for a lot, preference is given to the first bid received. A mail bid will take precedence over an identical floor bid. A floor bidder must bid higher than the highest mail bidder to be awarded any lot. The auctioneer reserves the right to refuse any bids, which he, in his sole discretion, feels are not made in good faith.

13. The auctioneer can not be responsible for errors in bidding. Please make certain that you bid on the correct lot and that your bid is the maximum that you are willing to pay.

14. An estimate is provided for each lot. This estimate represents, in the opinion of the cataloguer, the current market value of the lot. Lots may, of course, sell for above or below this estimate.

15. All photographs in this catalogue are of the actual items being sold.

16. Postage, insurance and sales tax, if required by law to be collected, will be added to the invoice for any lot(s) invoiced to successful bidders. All lots delivered in the state of California are subject to applicable sales tax. Individuals purchasing lots for resale must submit an exemption certificate, signed by the purchaser or his agent and recognized by the state of California, with their current resale certificate number or be subject to the sales tax.

17. We reserve the right to require payment in full before delivering any lot to a successful bidder. It is the buyer's responsibility and obligation to have the lots fully insured while in his/her possession. Risk of loss is on the buyer. All lots sent to foreign countries, including Canada and Mexico, will be billed an additional 1/2 of 1% for insurance. The minimum insurance fee is $5.00. Please send shipping instructions. Normally all lots will be sent via registered mail.

18. In the event a bidder fails to make remittance promptly, auctioneer reserves the right to resell the merchandise and bidder agrees to pay for the reasonable cost of such a sale and also to pay any difference between the resale price and the previously successful bid.

19. If the invoice for the auction is not paid for in full, when due, the unpaid balance will bear interest at the highest rate permitted by law until it is paid in full. If the matter is referred to an attorney for collection, bidder agrees to pay all attorney fees, court costs and other costs incurred by Ponterio & Associates, Inc. The courts of San Diego County, California shall have exclusive jurisdiction and venue over any suit initiated by Ponterio & Associates, Inc. to collect past due invoices and the service of process by certified/registered mail, return receipt requested, shall be sufficient to confer "in personam" jurisdiction over bidder.

20. Auctioneer reserves the right to postpone the sale by auction of the property, for a reasonable period of time, as the result of any act of war, natural calamity or significant relevant event, which, in the judgment of auctioneer, reasonably exercised, make it inadvisable to hold the auction as scheduled.

21. Our ultimate liability for any item is the price paid.

22. By bidding in this sale, bidder personally guarantees payment; if a corporation is the bidder, the officers and/or principals of the corporation agree to personally guarantee payment.

23. All bid sheets submitted by mail bidders must be signed. Company bids must be submitted with the signature of a duly authorized agent of such company.

24. Bidding in this sale constitutes acceptance by the bidder of all the forementioned terms and conditions of sale.

INSTRUCTIONS TO NEW MAIL BIDDERS

Bidding by mail permits you to participate in an auction as though you were attending it in person. The procedure is really quite simple. You tell us what you want, and the maximum amount you are willing to pay. We then, as your personal agent, try to buy the items listed for you at the lowest possible price.

LOT	BID
#1008	$200
#1037	$300
#1096	$400
#1118	$600
#1205	$900

The enclosed mail bid form has two sides for you to fill in. The front side provides all the information we will need to register you as a bidder, execute your bids for you and deliver your lots to you if you are a successful bidder. Please answer all the questions that may apply to you. DON'T FORGET TO SIGN YOUR BID SHEET.

On the back side are pairs of columns where you may list your bids. After carefully reading the lot description, write down the lot number and the maximum amount you are willing to pay for that lot. Don't forget that a 10% buyer's fee will be added to your actual purchase price if you are the lucky bidder. Continue to list lot numbers and bids for each of the lots you are interested in buying.

When we receive your bid sheet, we will record your bids at the amount you have authorized us to bid for you, and we will, in addition, note any lots where an increase is authorized if absolutely needed to win the lot. For example, if the sample bid sheet shown at the right were yours, we would enter your bid on lot #1008 as $200. If yours was the highest bid received, you would be the purchaser at $200. (plus 10%) or perhaps even less. If the second highest bid received on the lot was substantially less, your bid would be reduced to a "normal" increment above that second-highest bid, just as it would be if you were present at the sale yourself to execute your own bids. If you have authorized a percentage increase on the front side of your bid sheet and the bidding by others has exceeded your basic bid, we will then, as your personal agent, increase your bid to the minimum amount necessary to obtain the lot for you. The authorized increase will never be used except when your basic bid is exceeded.

Before you mail your bid sheet, do be sure to check it over to make certain you have bid on the correct lot(s) and that your bids are the ones you are both willing and able to pay for. Enjoy the catalogue, place bids on everything you would like to buy. If time is running out and you feel your bid sheet may arrive too late to be included, you may call our office between the hours of 9:00 a.m. and 5:00 p.m. Monday through Friday, giving us the lot numbers and amount you will pay for each lot, over the telephone. Please make sure you immediately send in your bid sheet for confirmation. Also, you may FAX your bid sheet to us. As your personal agents we wish you every success.

☞ *VIEWING OF LOTS* ☜

Just How Interested Are You in Spanish Colonial Milled 8 Reales ?

Have you seen the advertisements offering an 1804 Dollar for $79.95 in "Mechanics Illustrated", "Scientific American", or any number of other magazines? It is certainly an attention getter, but there is an illustration of a coin that certainly doesn't look like a dollar - probably because it is a "bust" type Spanish colonial 8 Reales, but it does have an 1804 date and it did have a value equivalent of a U.S. Dollar. Certainly, for the overall condition of the coins probably being sent out by the seller that is not really a "good deal" for someone interested in the piece as part of a numismatic collection. For someone just interested in having an item of some historical interest it isn't so bad; it just isn't great.

Just what is it about the milled Spanish colonial 8 Reales that can attract someone who isn't particularly interested in collecting these as a major area of interest? Well, they were indeed legal tender in the United States until 1857; many notes issued by the Continental Congress and varied states during and after the War of Independence were payable in Spanish Milled Dollars and vignettes of Spanish colonial coins frequently appeared on comparably denominated notes issued in the U.S. between 1800 and 1861. These coins also circulated widely as "trade coins" in the Far East due to their uniform uniformity standard of fineness and appearance, and led to the issuance of similarly valued trade coins by the United States, Great Britain and Japan. Another attraction is that many of these pieces are quite inexpensive - especially compared to U.S. Dollars of the same time period!

There have been two very general types of the Spanish colonial milled 8 Reales, the "pillar" and "bust" types; within these there are major types based on the changes in ruler's names on the "pillar" coins and the names and portrait changes on the "bust" types. Thus, a general "type set" could consist of one coin of Philip V, Ferdinand VI, Charles III (pillar), Charles III (bust), Charles IV and Ferdinand VII; 6 pieces altogether, although a Ferdinand VII "imaginary" bust could be added to bring the total to 7.

Now, how about the different mints which produced these items of interest? Well, let's have a brief quiz - how many colonial mints made milled 8 Reales and what were their names? Just for the sake of discussion, I am not including any of the regional Mexican mints which produced Royalist coins during the War of Independence at this time - I'll get to these shortly - so let's take a look at 9 for the number of mints involved. I can almost visualize some eyebrows lifting about that number, but, we have, with their mintmarks and the time span of milled 8 Reales production: Potosi, Bolivia (POTSI monogram, 1767-1825), Santiago, Chile (So monogram, 1751-1818), Nuevo Reino/Bogota, Colombia (NoRo, 1759-62), Popayan, Colombia (P, 1810-20), Guatemala City, Guatemala (G, 1754-73, and NG, 1776-1821), Mexico City, Mexico (Mo or MX, 1732-1821), Cuzco, Peru (Cuz monogram, 1824) and Lima, Peru (L ligate MA or LMA monogram, 1752-1824). O.K., you say, but that adds up to 8 cities, not 9. Yes and no. Picky point, but the mint in Guatemala which produced milled coins and used "G" as its mintmark was destroyed when a massive earthquake devastated the city of Guatemala in 1773; a new Guatemala City was built not to far from the old site (now called "Antigua") and the new mint used "NG" as its mintmark to denote "Nuevo Guatemala".

With this variety of mints, how many basic type coins were produced at each? Potosi has 4 types, Santiago has 8 counting 3 for Ferdinand VII, Nuevo Reino has 2 (1 for each year of production!), Popayan has 1, Guatemala (G & NG combined) has 5, Mexico has 7 counting 2 for Ferdinand VII, Lima has 7 with 3 for Ferdinand VII and Cuzco has 1. Again, there's a quibble I did not include the Charles IV issues which portray the bust of Charles III, so add 1 to the totals of Potosi, Santiago, Guatemala, Mexico and Lima (there's also a Ferdinand VII issue with the bust of Charles IV from Guatemala). Whew! Sometimes it's necessary to ask what constitutes a type of coin, isn't it? Well, that's about it for the "major" types, now let's look at some minor type stuff. Lima has several interesting "minor types" with a dot above the left mintmark on some pieces and dots above both mintmarks on others, both in the same years between 1760 and 1771, and adding another wrinkle to this "type" stuff by changing from having Royal Crowns atop the pillars at the sides of the crowned globes to a Royal and an Imperial crown, one on each pillar. Mexico also had the one or two-crown types as well as a single arc or double arc on the crown above the globes and initials and mintmark that faced the rim or were inverted on others. Do these single/double arcs and upright/inverted letters constitute minor types? I'll let you handle that on your own!

Now let's take a look at the regional Mexican mints which produced struck or cast "milled type" Royalist coinage during the War of Independence. In alphabetical order, with their mintmarks and production time spans, these are Chihuahua (Ca, 1813-22), Durango (Do, 1811-22), Guadalajara (Ga, 1812-22), Guanajuato (Go, 1812-22), Nueva Viscaya (Nuev. Vizcaya, 1811), Oaxaca (Oaxaca, 1812), Real de Catorce (R.D. Catorc, 1811), Sombrerete (Vargas, 1810-12), Valladolid (P.D.V. or similar, 1810-12) and Zacatecas (Z, Zs or Zacatecas, 1810-21).

Hopefully I haven't completely confused you too greatly as it gets even more complicated; some of these mints produced only struck coins, some only cast pieces and others produced both types. In the case of Chihuahua, in the early stages of the War for Independence, molds were made of milled 1810-1813 Mexico City issues of Ferdinand and the mintmarks altered from "Mo" to "Ca" and used to produce cast coins which had two counterstamps punched on the obverse to further identify their origin; struck 8 Reales were produced from 1813 to 1822. Durango issued only struck coins of two types - with an armored bust of Ferdinand, 1811-14 and a draped bust, 1812-22. Guadalajara and Guanajuato also produced only struck coins of the draped bust type but the struck issues of Nueva Viscaya had the arms of Durango on the obverse and the royal arms on the reverse. The Oaxaca 8 Reales issues were all cast with a countermark added to the obverse of each whereas the pieces issued by Real de Catorce and Sombrerete were struck, the latter having both large and small design types. Valladolid produced two varieties of struck coins, wreathed arms on the obverse with a legend reverse and draped bust obverse and royal arms reverse, and Zacatecas, also issuing only struck coins, had several interesting varieties - the "L.V.O." type with a mountain on the reverse (with 2 obverses - local arms with flowers on the shield and the usual royal arms) as well as armored and draped bust obverses with the regular reverse. Even here we have more varieties - single and double arc type crowns in the 1821 issues! In addition to all this, numerous factions and entities counterstamped many Royalist issues but those not be covered here at all.

There are many, many varieties and errors which exist among the milled 8 Reales, some of which are fairly common and not too expensive, others are extremely hard to find and very expensive. There are overdates from all mints except Nuevo Reino, changes in the ordinal of Charles IV to IIII (Lima, 1791) and on Mexican pieces of 1760 and 1761 one finds the cross of the crown above the royal arms on the reverse pointing between "I" and "S" of "HISPAN", between the "H" and "I", or directly beneath the "I". The repunching of dates on dies shows a reluctance to discard a perfectly good die just because a new year has arrived, and the same can be noted on some 1760 pieces of Mexico where one can sometimes find "CAROLUS III" punched over "FERDND.VI"; frequently when there had been a change in assayers in a given year, or even from one year to the next, initials of the new assayer are found punched over those of the former, as with Santiago 1801/0-JJ/AJ, Mexico 1754/3-MM/MF and 1801/0-FM/FT, etc. So, with all or a combination of these diverse design elements, a great many combinations are possible, such as Lima 1769's with Royal crowns and 1 dot, Royal crowns and 2 dots, different crowns and 1 dot as well as different crowns and 2 dots. Another complicated series involves Mexico issues of 1761 where one can find 1761/50 double arc "I-S", 1761/0 double arc "I-S', 1761/0 double arc "H-I", single arc "I-S", double arc "I-S", double arc under "I", double arc "H-I" and single arc "H-I"; it's a good thing they didn't change assayers until the next year!

Spelling errors, mispunchings or omissions are always intriguing and offer great challenges, some of the more interesting ones being "VTRA" misspelled "VRTA" (Potosi, 1768), "CAROLUS III" with or without a dot between (Potosi, 1770), "FERDINANDUS", "CRAROLUS" and "CROLVS" (Santiago, 1758, 1796 and 1800), "CRALVS" over "CARVLS" and "17.65" punctuated date (Mexico, 1764 and 1765), "HIAPSN" or "HIPSAN" instead of "HISPAN" and "R8" instead of "8R" (Lima, 1771 and 1796 & 1798), and so on. One can also find different styles of numeral punches being issued as with "rounded" or "fancy" 9's (Potosi, 1769 where there are both types as well as a rounded 9 struck over a fancy 9 overpunching) and "Spanish" or "Arabic" style 5's (Guatemala, 1754).

As you can see, there are many challenges and opportunities in the Spanish colonial milled 8 reales; if you haven't had much experience with these interesting coins before now, I hope that you look upon them with a different perspective than before.
